

**Monday 21 June 2010: 6.30—8.30**

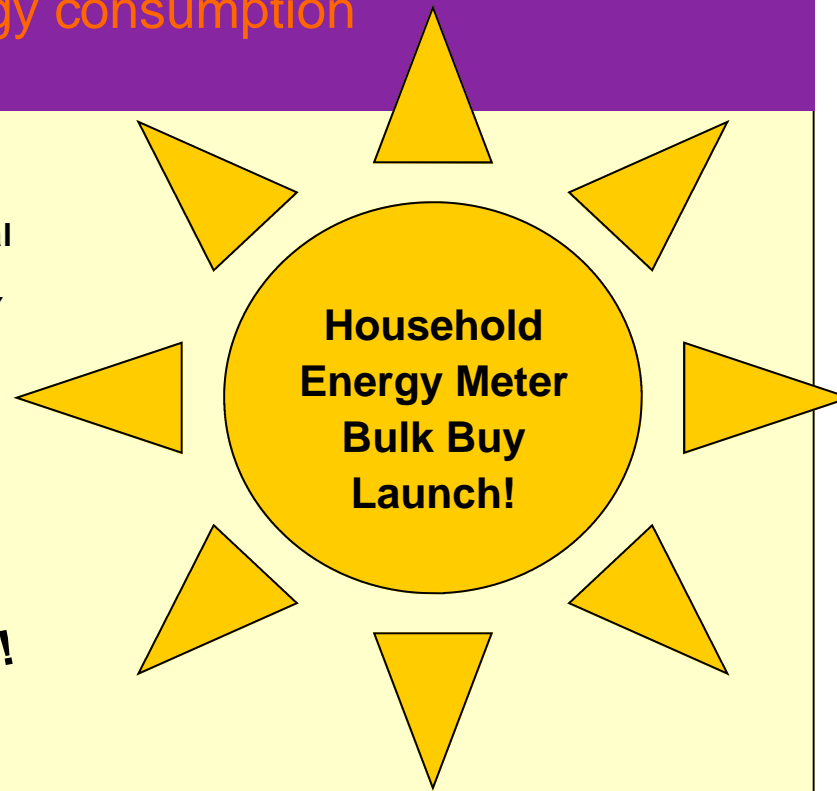

St Francis Xavier Church Hall – corner of Anglesea and Adelaide St, South Hobart (behind church).

# Winter Warming

## Home energy advice evening

Good ideas for reducing energy consumption

Our local South Hobart Sustainable Community has collected the best tips and advice from local energy assessors and experts and will demonstrate a range of hi tech through to low cost DIY actions to target the most energy consuming components of your power bill.

**Household  
Energy Meter  
Bulk Buy  
Launch!**

Down-light dilemmas

Thermal imaging

**Gluwein and supper**

**provided!**

Energy auditing

Hot water savers

Standby savers

Entry via gold coin donation

### Program

**6:30pm:** Solstice celebrations – gluwein and supper

**6:45pm.** Welcome

**6:50pm.** Summary of Tasmania's power system. Where our power comes from and how we use it.

**7:00pm** Behaviour change and its barriers.

**7:10 pm** Low tech DIY projects that effectively reduce power use

**7:25pm** Thermal imaging and air exchange measurements using doorway air pressure blower

**7:35pm** Household energy meters – launch of SHSC latest bulk purchase.

**7:40 pm** Introduction of demonstrations and displays

**7:45 – 8:30pm.** Demonstrations and displays

**8:30pm** – Your turn to apply what you have learnt to your home.
